What you can expect from us

Your dental health is our priority and we aim to involve you in every stage of your treatment. We discuss the results of your examination and plan the best way to deal with any problems. We will talk about concerns you may have and we take the time to discuss your treatment plan with you to ensure that you have a clear understanding of your current oral health status and the treatment you require.

“ Very pleasant receptionist and dental staff. Patients are made to feel welcome. The staff have patience and time. Thank you!

Smile with confidence, we have the solution

We provide a range of treatments that can result in transforming even the most unattractive smile into a beautiful one.

Whatever the reason, whether it be discoloured, chipped or uneven teeth, or gaps in your smile that leave you feeling self-conscious, we can provide the right solution to enable you to walk away with the smile you deserve. Treatments can be used to straighten, lighten, reshape and repair teeth.

We can help improve your smile with:

 <p>Hygienist services to maintain a fresher, healthier mouth, as well as advice on cleaning aids to help you with your home routine.</p>	 <p>Teeth whitening for visibly whiter, brighter teeth that can go several shades lighter.</p>	 <p>Adult orthodontics used to alleviate crooked, misaligned teeth to achieve a straighter smile.</p>
